

August 2022

Dear Sir/Madam,

Thank you for your interest in our matwork teacher training course. We hope this pack will help to guide you through the complex – and sometimes confusing – process of choosing the right training provider.

Body Control Pilates is recognised as a world-leading training provider since pioneering the development of Pilates matwork classes more than 25 years ago. Our course is seen as a benchmark in the industry, and it lays a unique foundation for a successful Pilates teaching career. It is the most comprehensive matwork course available, not only in terms of content and exercises covered (you study more than 100 exercises), but also in the focus we devote to building your skills and confidence as a teacher. More than with any other course available, when you gain your certification you will be absolutely ready to teach!

The course has 13 tuition days and can be undertaken in one of two formats:

- **'intensive'**, usually comprising two tuition blocks of six days and seven days.
- **'extended'**, comprising two-day blocks held typically every other weekend over a three-month period. There is one three-day block during the course, incorporating a Monday.

You cover the same content in both course formats, so you can decide which works best for you – please just give us a call if you have any questions on this. The initial 13 tuition days are delivered online via live Zoom tutorials with four face to face 'Contact Days' following. This 'hybrid' course format has been delivering excellent results and will continue going forward. You will find more details in this pack.

The tuition days are followed by some self-study work submissions; two 90-minute written examinations (online), and a period of 'supervised teaching' culminating in a final teaching assessment. Body Control Pilates is unique in having a national network of well over 100 'supervising teachers' enabling students to do much of their teaching practice closer to home. Our course fees cover your 'work' with those teachers, so there is nothing extra to pay. We also offer a range of student 'supervised teaching workshops' in London and online.

You should assume that it will take you between 6-12 months to qualify, mainly determined by your availability in the supervised teaching period (many of our students work full-time) and by the progress you make. Our education team will always be on hand to support you every step of the way.

Upon qualifying, you receive a Body Control Pilates matwork certificate (to teach group classes and '1:1' private sessions) and you also gain accreditation against the new industry standard for Pilates. Importantly, you will become part of our membership body, which has over 1,500 members and is Europe's largest and most active Pilates community.

If you wish to join a course, please return a completed **Enrolment Form** (also downloadable from our website). We ask that you have been taking regular Pilates classes before applying and starting the course. If this has been with a Body Control Pilates teacher, we will contact that teacher so that they can 'endorse' your application. If your teacher is *not* Body Control Pilates-certified, that's not a problem at all - we will help to familiarise you with our exercises and approach before you start your course.

Any questions? Please give us a call on **020 7636 8900** or email Ella, our Education Manager, at ella.porter@bodycontrol.co.uk. If you prefer, we are very happy to set up a Zoom chat with you.

Yours faithfully,

Leigh Robinson
Director

27 Years of Innovation + Leadership

Since our formation in 1995, Body Control Pilates has been at the forefront in the growth of Pilates in the UK and beyond and, most importantly, in the development of standards for Pilates education. Our approach to teacher training was the first of its kind in the world and represented a total change from the previous 'apprenticeship' method of becoming a teacher. Our international community of teachers now numbers 1,500 across more than 50 countries.

Pilates Standards in the UK, the EU, and beyond

For many years (since 2005 in fact), the UK had a national standard for Pilates, known colloquially within the industry as 'Level 3 Pilates'. It sets the minimum requirements in terms of skills and knowledge that a teacher should have to teach Pilates matwork. Increasingly, however, concern has grown that the Level 3 standard does not place enough emphasis on students becoming familiar with the exercise repertoire, whether through teaching or in their own body; and that not enough emphasis is placed on contact hours and teaching practice. These are vital for ensuring that someone is absolutely ready to teach when they qualify.

In response to this, and also in recognition that the UK Pilates industry needs its own voice when lobbying the government or key public organisations, leading training providers in the UK formed a new not-for-profit body in early 2021. This is called the **Society for the Pilates Method**. Body Control Pilates is proud to be one of the three Founders of the SPM.

Its overriding mission to uphold the quality of Pilates education and teaching in the UK and, to this end, it has adopted new standards for matwork and studio apparatus, leading to a Comprehensive qualification. These standards were developed with, and are overseen by, PD:Approval, a leading international agency in the development of occupational standards and quality assurance.

The Body Control Pilates matwork teacher training course meets this new standard, which means that upon qualification you will receive two certificates: one from Body Control Pilates and one from PD:Approval, signifying that your qualification will have a wide international recognition.

If you want to work in fitness clubs in the UK, you may also be asked to hold a 'Level 3 Pilates' qualification. More than 95% of our teachers work outside the traditional fitness industry, running their own classes, or teaching in studios or physio centres, for example. We can offer you a Level 3 certification as an additional element when you come to take your assessments for the course – this will involve you taking some additional, separate assessments. 'Level 3 Pilates' certificates are awarded by Active IQ, our Awarding Organisation for this purpose. **We are currently the only 'one stop' training provider** who can offer you accreditation against both current matwork standards.

Body Control Pilates has an established history of leading the industry in the development of standards, whether that was by being the first specialist Pilates training provider to receive formal approval against the UK national standard for Pilates when it was introduced; by being the first in the industry to develop and launch a 'Level 4 Pilates' qualification; or by being invited to chair a group tasked with developing a European Union standard for Pilates.

Whilst there is no formal worldwide standard for Pilates, what we offer is, as mentioned, one of the most internationally accepted qualifications in the industry. This is underlined by Body Control Pilates having teachers working in over 50 countries around the world. Please contact us if you need more information.

Schedule of Fees

We are pleased to introduce our new package of course fees for all courses starting from September 2022 onwards. The total level of fees is **£2,600**.

Save £300! Total fees are reduced to **£2,300** under the **Advanced Payment Scheme**, when payment is made in full a minimum of four weeks before your course start date.

We ask initially for payment of a **£250 Registration Fee** in order for your place to be confirmed. Your place is not guaranteed until this payment is received.

We are very happy to discuss **payment by instalments**. After payment of the Registration Fee, we ask that an additional **£850** is paid at least 10 days before your course start date. The balance of **£1,500** can then be paid in instalments – see below.

Fees include the following elements of the course: online tuition modules, Contact Days, course materials, assessments, supervised teaching with our teacher network, Awarding Body registration.

They also include your first year's membership of **The Body Control Pilates Association** (normally £150) and of the **Society for the Pilates Method Register of Teachers** (normally £35).

We also have a number of optional student workshops and classes that we offer online and face to face in London. These are designed to help you progress through your supervised teaching period and complement any work you do with supervising teachers. There is a small charge for these (usually £20-30). As part of our new fees package, we are pleased to offer you a **credit of £150** that can be used towards these.

So, what do I pay when?

Once we have offered you a place, the first payment you make is the **£250 Registration Fee**. Thereafter:

Advance Payment Scheme

After having paid your Registration Fee, the balance payable is **£2,050**. This should be cleared a minimum of four weeks before your course start date – we will let you know the payment deadline for your particular course.

Instalment Plan Scheme

After having paid your Registration Fee, the balance payable is **£2,350**. At least **£850** of this should be paid 10 days before your course start date as this enables us to post your package of course notes to you in good time for your start date. The remaining balance (typically £1,500) may then be paid in four monthly instalments of £375. If you would like to extend this over a longer period, please contact Ella Porter. We'll be happy to help.

Please note that you cannot receive your certification until course fees have been paid in full.

Payments can be made by bank transfer (please request details) or by calling us to pay by card (debit/credit/Amex). We're very happy for instalments to be paid by Standing Order. We can also accept international payments via Transferwise or Paypal.
